

## COAE's current scope of activities

---

**COAE received its first accreditation certificate in 1999 according to EN45011. The current accreditation scope covers the following:**

- 1.0 Agricultural production, processing and import of organic plant origin according to Regulation (EEC) no. 2092/91 (Annex III A.1, B, C and D on organic production and export of these products according to the legal norms of the importing countries
- 2.0 Non-processed agricultural products or plant origin according to international demeter production standards and processed agricultural products of predominantly plant origin according to international Demeter processing standards Part A, B I, B IV, B V and B XI
- 3.0 Agricultural production based on the GLOBALGAP certification program for the production of fruit and vegetables

**For updated information on COAE's accreditation status, please refer to COAE's Accreditation Certificate.**

**NB:** COAE has applied for accreditation based on the requirements of USDA NOP - 7 CFR Part 205 National Organic Program; Final Rule dated December 21, 2000: amended November 3, 2003

On the other hand, and based on its competence, COAE has signed contractual agreements based on which it can inspect and certify interested organisations against the following private standards:

- 1.0 BIOSUISSE standards
- 2.0 Soil Association Standard
- 3.0 Global organic textile standard
- 4.0 Nature and more
- 5.0 Hand in Hand Social Standard
